ACTION!
Your crack team of S.A.S. commandos are scattered amongst the enemy islands. Your mission: get them out before the communist revolutionary army gets them in it's evil clutches. Heavily armed and shielded in the world's most advanced helicopter gunship you'll be flying in fast and low, blasting through hostile enemy defences. Your outfit is counting on you – don't let them down.
This game is one of the most sophisticated battle simulations yet – gigantic maps packed with islands, enemy bases, tanks, aircraft carriers, helicopter gunships – everything!
